WHAT TEACHERS THINK

"Lots of different categories to work through.... penmanship, errors in spelling, grammar, etc. Going to be great to use all year."

"This was great for my students to practice the different parts of a sentence, and there was an added bonus for the students who need to practice their handwriting!"

"My students are completing this during center work and are challenged with moving up to the next level or writing. I love seeing how excited and determined they are to take their time with handwriting."
